

**Adrián Mosquera Orgueira.** This 23-year-old medical student is finishing his degree while collaborating with GENVIP in the Clinical Hospital Clínico Universitario de Santiago. During the last years he has been studying abroad in Scotland, England, Ireland, Canada and Germany. After a research period focused on metabolic diseases he has moved his perspective to the systems biology of infectious diseases. Main interests: network analysis of genomics, transcriptomics, proteomics and metabolomics data, as well as integrated analysis, graphical representation and meta-analysis development.
